# **Feel safe** and find your peace of mind

With **FIBARO STARTER** KIT you can take care of your loved ones and property in a completely new way. It will help you to lower the risk of unexpected events and minimize the damage if the worst happens. Whenever a threat is detected the system reacts autonomously by running a preprogrammed scene, created for a specific situation. You will also get a notification on your mobile device to take further actions if necessary.
## FIBARO®
### Home intelligence

**MOTION SENSOR** will inform you about any visits of uninvited guests. Combined with other devices it can take further actions to protect your valuables and property, i.e. close the door locks to prevent a burglar's escape before the police reaction.
*Eye on everything*

**SMOKE SENSOR** detects even the smallest amounts of smoke. In case of fire threat, together with other devices it will take actions to protect your family and prevent the fire from spreading. It may start the scene that shows the evacuation route with lights, cuts off the electricity and ventilation supply in a room engulfed in flames.

*Security nose*

# Lower your bills and take care of the environment

With **FIBARO STARTER** KIT you can introduce energy saving and environment friendly solutions in your home. Home Center Lite allows you to create detailed statistics of energy consumption and locate the most energy-hungry appliances. Analysis of electricity usage becomes easy, what helps to lower your monthly bills.

In the STARTER KIT you will find a Wall Plug, remotely controlled, compact, plug-n-play outlet adapter with power metering feature. It can switch off unused or broken devices. With Motion Sensor you can adjust the lights in any room to turn on and off only when needed. The device distinguishes people from animals, so there is no need to worry that cat or dog will increase your bills.
